

Series 3000

Interlocking Lap

Nu-Ray's Series 3000 is a concealed fastener panel. This system provides an affordable, easy to install, durable metal system for roof and wall applications.

Our unique non-clip roll lock panel design is excellent for a wide range of metal roofing and wall applications including residential and light commercial.

A wide variety of attractive colors in 26 and 24 gauge are available featuring a top-of-the-line BASF **ULTRA**-Cool Kynar 500 paint finish.

Zincalume Plus is available in 26 and 24 gauge.

G-90 level galvanized base metal is standard in 26 and 24 gauge materials.

Panels are available with or without pencil ribs.

Minimum 3/12 pitch recommended.
